

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Yoshikazu KOBAYASHI et al
Title: TELEPHONE SYSTEM FOR MAKING CALL TO TELEPHONE
NUMBER READ FROM A SHEET
Appl. No.: Unassigned
Filing Date: 06/30/2003
Examiner: Unassigned
Art Unit: Unassigned

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Mail Stop PATENT APPLICATION
Commissioner for Patents
PO Box 1450
Alexandria, Virginia 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56. A copy of each listed document is being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b), within three (3) months of the filing date of the application.

RELEVANCE OF EACH DOCUMENT

Document A1 is a U.S. counterpart of Document A2.

The relevance of Document A3 is described in the present specification.

Document A4 relates to a system that optically reads a telephone number written on a card surface, and for automatically dialing the number.

Document A5 relates to a telephone set that has an optical character sensor that discriminates the presence or absence of characters for a telephone card on which telephone numbers of incoming subscribers are written.

Document A6 relates to a telephone set that includes a telephone number reader that can optically read a telephone number, a name and an address which are printed, and which can automatically transmit a telephone number.

Document A7 relates to a system including a telephone receiver that receives an image signal and that stores the image signal, and a number recognition circuit that recognizes a telephone number from the stored image information and that sends the telephone number to a telephone set.

Document A8 relates to a communication terminal equipment with an optical character recognition (OCR) reader that can read special bar codes. An English translation of each of the foreign-language documents is not readily available. However, the absence of such translation does not relieve the PTO from its duty to consider the submitted foreign language documents (37 CFR §1.98 and MPEP §609). English language abstracts are attached.

Applicants respectfully request that any listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 CFR §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.

Respectfully submitted,

Date: June 30, 2003
